

# impact.com + Stripe: Track your partnerships and payments in one place

Driving sales for your business can be hard. But it's even harder when you have to cobble together solutions to handle partner recruitment, contracting, payments, and tracking.

That's where impact.com's no-code, plugin integration for Stripe comes in. By integrating with an end-to-end partnership management platform, you can automate and manage partnerships at every stage. Find new partners, track their efforts, and reward them for driving sales and subscriptions for your business.

## Get your program up and running fast

impact.com's integration with Stripe doesn't require a developer team or a clunky custom build.

## Set up recurring partner payments

When your partners generate monthly subscriptions, you can pay them on a recurring basis through impact.com.

## Reward partners for single-time transactions

impact.com captures order-level data so you can automatically pay partners when they drive single-time transactions.

# The impact.com platform accelerates growth

Use impact.com's integration with Stripe to expand your program and scale every type of partnership.

The word “partner” can mean a lot of things. But for you, it means a world of opportunity. These are the major partner types that refer business to brands on our platform today.
